

Finding Outstanding Work Orders:

Locating Initial (Parent) Work Orders or Exception (Child) Work Orders

1) At the time the exception work order is created, it can be seen on the Work Order Detail screen.

2) Each time the user logs in to the landing page the outstanding work orders (parent or child) will be listed as “Exception” and “In Process”, as seen below.

Late Contribution Notification Email to Employers and PSERS

Subject Line:

Notice regarding your outstanding work orders.

E-mail Content:

Our records indicate that you have outstanding work orders that need to be processed at Voya for your PSERS employees. This may represent an initial work order or an exception work order. Please process this contribution file or notify Voya to have this file deleted.

The following payroll dates have work orders that are outstanding:

List all outstanding payroll work orders dates from the report for this employer.

PSERS reconciles against your DC reporting, and this could result in penalties being assessed if reporting is not handled properly and timely.

More information on exception work orders can be found in the [Voya Data Gateway User Guide](#) or the [Exception Work Order Guide](#).

This is sent from an unmonitored account so please DO NOT RESPOND TO THIS E-MAIL.

Note: If there are no active employees in the plan for an employer, please contact the Voya Employer Help Line at (877) 806-5652 or ID-PSERSS@VOYA.COM to delete the outstanding work orders. Voya can also turn “off” the recurring nature of the work orders so that no new work orders are created.

Instructions for Utilizing an Exception Work Order

Exception Work Order

As an alternative to immediate error correction, records with errors can be moved to an exception work order for correction at a later time.

Client Select / Dashboard / Work Order Details / Correct Errors

Initializing > Entry > Validating > **Errors** > Funding > Complete

Screen Options

- Click **Cancel** to return to the landing screen without saving the data currently entered
- Click **View All Participants** to display a view of all the work order data
- Check the **Move Exception** checkbox to identify individual participants who will be moved to an *Exception Work Order* when Move Exceptions (below) is selected. If the checkbox is de-selected, the participant will not be moved to an *Exception Work Order*.
- Click **Move Exceptions** to move the checked participants to a separate work order for exception processing. This option will be used when the errors that occurred require additional research, but you would like the remaining participants to be processed.
- Click **Move All Exceptions** to gather all participants with exceptions into an *Exception Work Order* without having first to select them individually. Selecting this option will not exclude any participant with an error. You will be asked to confirm the command and to document the reason for its use.
- Click **Save** to store the currently entered data into the Voya Data Gateway database allowing for completion at a later time.
- Click **Complete** to store the data into the Voya Data Gateway database and request that the data be validated. A *Summary* screen will be displayed containing financial field totals

1. Select the **Move Exception** checkbox for all records you wish to include in an exception work order. Click **Move Exceptions**.

Your request has been successfully processed. Please check the Work Order Detail screen to see the status of your request.

[View Work Order Detail](#)

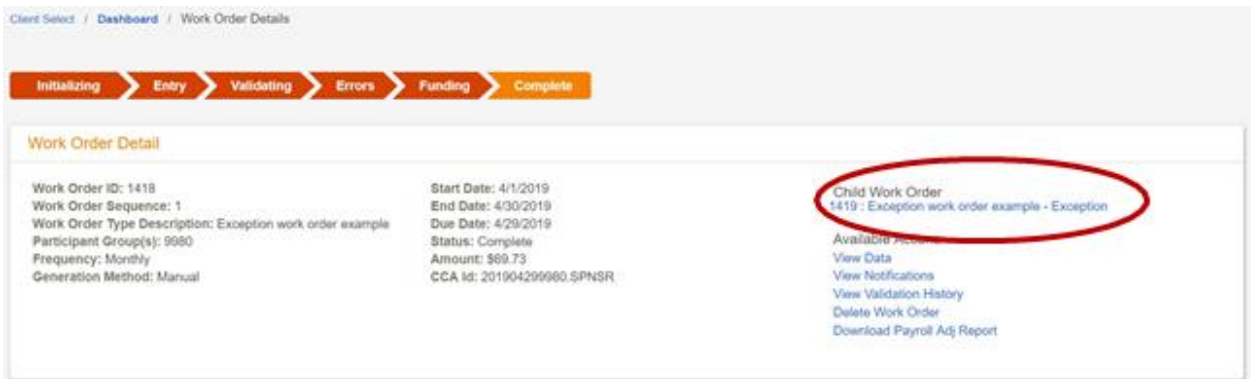

An exception work order description is the same as the parent work order with “- Exception” at the end of the description.

Exception work orders will need to be processed using the *Manually Populate Work Order* method. For more information, refer to that section of the guide.

Note: The due date of this work order will be the same as the parent work order from which it was created.

This exception work order is considered outstanding until processed. Work orders will be considered late if not processed by the stock market close on your payroll due date (4:00 p.m. EST unless there is an early market close).

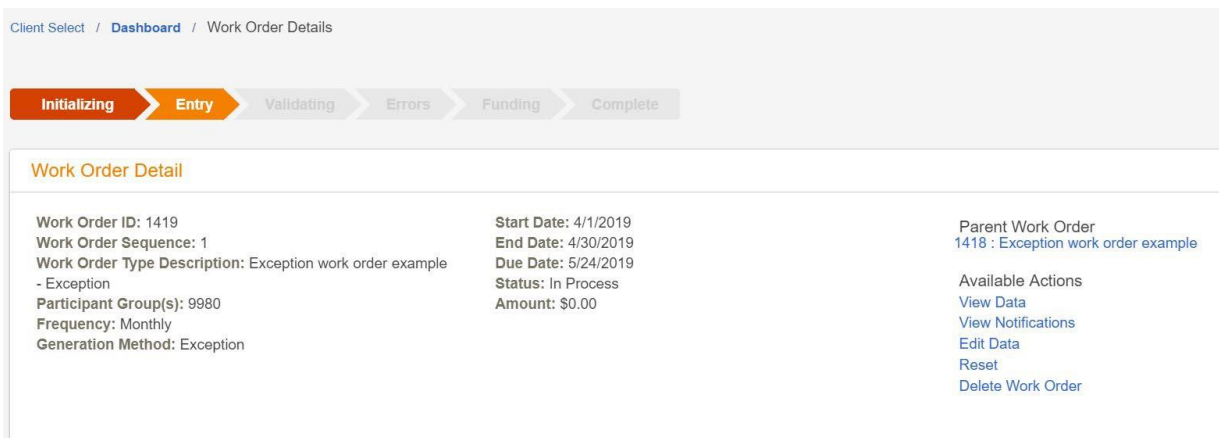

8. Click on the link under *Child Work Order*. You will see the *Work Order Detail* for the exception work order.

The screenshot shows a web interface for 'Work Order Details'. At the top, there is a breadcrumb trail: 'Client Select / Dashboard / Work Order Details'. Below this is a progress bar with six steps: 'Initializing', 'Entry', 'Validating', 'Errors', 'Funding', and 'Complete'. The 'Entry' step is currently active. The main content area is titled 'Work Order Detail' and contains the following information:

Work Order ID: 1418	Start Date: 4/1/2019	Child Work Order
Work Order Sequence: 1	End Date: 4/30/2019	1419 : Exception work order example - Exception
Work Order Type Description: Exception work order example	Due Date: 4/29/2019	Available Actions
Participant Group(s): 9980	Status: Complete	View Data
Frequency: Monthly	Amount: \$69.73	View Notifications
Generation Method: Manual	CCA Id: 201904299980.SPNSR	View Validation History
		Delete Work Order
		Download Payroll Adj Report

9. Click **Edit Data** under *Available Actions*. You will see the *Enter Data* screen.
