

Whitelisting email blast—Sent to employers on November 5, 2018

Act now for Act 5!

PSERS and Voya Financial®, the defined contribution (DC) record keeper for the new Act 5 retirement plan options, are committed to help you prepare for the launch of the two new hybrid options and the DC-only plan July 2019.

To ensure that you receive important implementation communications from Voya in a timely manner, and not blocked by security firewalls, please ask your IT staff to “whitelist” the following Voya IP ranges and server domains.

IP Ranges:

- 216.205.154.64/26
- 208.82.208.0/22

Server Domains:

- @nmgingmail.com
- @bounce.nmgingmail.com

Thank you for your continued support to help us implement these new plans with you. If your IT department has questions, please have them contact the Employer Service Center. We will gather all of the questions we receive and build a FAQ document to help complete the process.
